Virginia Air Board  
c/o Terry Darton  
Air Permit Manager  
13901 Crown Court  
Woodbridge, VA 22193

Dear Air Board,

The fight between the City Council and Potomac River Generating Station needs to stop. There is no reason why the city of Alexandria should be against the proposed stack merge project by Mirant Power. Mirant is willing to pay to improve the air quality. So what's wrong with that?

I have lived in Virginia for many years. I am now 92 years old and have been married for 62 years. My husband used to be in the Navy. I know that Mirant has been a fighting for a long time to get the permit needed to move forward with the stack merge project. I do not understand why something that the Virginia Department of Environmental Quality approves of is being rejected by the Air Board and City Council in Alexandria.

The City of Council needs to support the stack merging. It's only going to benefit in more than one way. We need improvement! The stack merge project is the solution to achieving this goal.

Best,

Katherine Repasy
